REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1961, any article of the following named classes of published works deposited for copyright between January 1, 1957, and January 1, 1958, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are :

Books and Pamphlets.

Contributions to periodicals.

Works of art ; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

The Library of Congress catalog card for this publication is shown on the last page.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part : \$3.50 per issue, \$7.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.). Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 (\$3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 13 of said Title 17, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which

were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

INTRODUCTION

PART 5 lists domestic and foreign published music and unpublished music registered in Class E. It includes also selected music materials in the form of books, pamphlets, and dramas registered in other classes.

Arrangement is by title. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from variant titles, from distinctive subtitles, and from other titles associated with the work. Works for which the subsisting copyright has been renewed are listed separately in Renewal Registrations.

The Name Index to the names of composers, authors of words, claimants, etc., given in the main entries covers both currently registered works and renewal registrations, the latter being distinguished by the symbol "R" following the title. Reference is made from each name to the titles under which the main entries are to be found. When the name is that of a claimant, the copyright symbol © follows the title.

For unpublished works currently registered, each main entry includes the following items of information if available and applicable:

- 1) Title. If the piece is an excerpt, the title of the work from which it is taken is also given.
- 2) Descriptive data are given if the title names a strict musical form, e.g., Sonata.
- 3) Names of the authors, each preceded by an abbreviation indicating relationship to the work, e.g., "w" (words by), "m" (music by), "arr." (arranged by), etc.
- 4) Name of the employer in case of a work made for hire, if so named in the application,

together with the names of the employees when given.

- 5) Copyright symbol ©.
- 6) Brief statement of new matter on which copyright is claimed, when this information is given in the application.
- 7) Name of the copyright claimant.
- 8) Date on which the last of all the items required to complete registration (i.e., copy, application, and fee) was received in the Copyright Office.
- 9) Registration number.
- 10) Information contained in the application which relates to an earlier version of the work.

For published works currently registered, each main entry includes the following items of information if available and applicable:

- 1) Title, and any descriptive data given in the work, including medium of performance.
- 2) Names of the authors with designations indicating relationship to the work.
- 3) Edition statement.
- 4) Place of publication for works published outside the United States.
- 5) Name of first-named publisher when the publisher is not also the claimant.
- 6) Indication as to whether the work is published in score and/or parts.
- 7) Series statement.
- 8) Note giving the language of the text when it is not apparent from the entry.
- 9) Statement that the work is part of a collection or bound with another work.

- 10) Names of authors given in the application which do not appear elsewhere in the entry.
- 11) Name of the employer in the case of a work made for hire, is so named in the application, together with the names of the employees when given.
- 12) Information contained in the application which relates to the registration of an earlier version of the work.
- 13) Brief statement of the new matter on which copyright is claimed preceded by the abbreviation "NM" if this information is given in the application and is not indicated elsewhere in the entry.
- 14) Copyright symbol ©.
- 15) Name of the copyright claimant.
- 16) Date of publication as given in the application.
- 17) Registration number.

In published music whenever it is necessary to indicate a variation between the information given in the application and the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Editorial MRT; 1 Jan 58 (in notice: 1957); EF0-48919.

For renewal registrations, each main entry includes the following items of information if available and applicable:

- 1) Title. If the piece is an excerpt, the title of the work from which it is taken is also given.
- 2) For works in larger forms, descriptive phrase indicating the character of the work, e.g., SHIP AHOY; musical comedy in 3 acts.
- 3) Names of the authors, with designations indicating their relationship to the work.
- 4) Information relating to the medium of performance.
- 5) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation "NM," if available in the renewal application or in the records of the Office.
- 6) Copyright symbol ©.
- 7) Date of original copyright.
- 8) Original registration number.

- 9) Name of renewal claimant, followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the claimant; e.g., "John Doe (A)" indicates that John Doe has made renewal claim as an author.
- 10) Date of receipt of the renewal application or fee, whichever is later.
- 11) Renewal registration number.
